

# FLORIAN IRLESBERGER

## SOFTWARE DEVELOPER

Innovative and result-oriented professional with 15+ years of experience in software development for web and mobile. Well known for high-level comprehension, solid team collaborations while delivering on time and upholding high quality standards.

### Work Experience (selected)

#### Hogrefe AG - Explorix V2 — Full Stack Developer

01/2024 - 12/2025

Development of a vendor-based career choice software called "Explorix." The software is built with Laravel on the backend and React.js with Tailwind CSS on the frontend, utilizing components from shadcn/ui.

#### Yazio GmbH — Frontend Developer

09/2021 - 10/2022

Freelance collaboration to support the frontend team and also realization of a Gatsby.js frontend with integration of a content API. Development and expansion of onboarding funnels.

#### Amnesty International CH — Full Stack Developer

12/2019 - 12/2020

Optimization and digitization of processes related to Amnesty's workshop management, as well as development of a comprehensive internal single-page application tool based on a RESTful API.

#### Hauert AG — Full Stack Developer

08/2018 - 12/2019

Development of a middleware between various systems that serves for the intelligent establishment of data relationships, as well as for the user-friendly and, above all, fast input of product data.

#### carpooling.com GmbH — Web Developer

02/2009 - 03/2016

Freelance collaboration and development of various online carpooling platforms (e.g., mitfahrgelegenheit.de), MySQL performance optimizations, integration of payment providers, and ensuring security in the web portals.

### Education

#### PFFH Darmstadt

2010 - 2015

Bachelor of Science, Applied computer science with focus on media information technology

#### Technical college for IT professionals, Deggendorf

2002 - 2005

IT specialist, Vocational training

Subject: Application development

Körnerstr, 3

80469 München
